## TRE Jump2Go/Quu Interactive

### TagStation Replacement

On December 21 2018, Broadcast Electronics releases a new version of TRE that provides a [TagStation replacement solution](#), TRE version 2.9 Build 123 RC 15.

Existing TRE customers who were previously using the TagStation/NextRadio solution, Broadcast Electronics has worked out a replacement option for the Album Art lookup in conjunction Jump2Go/Quu Interactive. This is considered a partial solution because, while the album art functionality will be available, the Spot/NTR solution is not available, nor does it feed the NextRadio app

The software update is available, for registered users, from Broadcast Electronics Technical Services website in the [Registered User Section](#)

#### Requirments

1. Contract with Jump2Go. [www.jump2go.com](http://www.jump2go.com)
2. [TRE version 2.9 Build 123 RC 15](#)

Please contact the Studio Technical Services department by phone at 217.224.4700 or e-mail [service@bdcast.com](mailto:service@bdcast.com) if assistance is required.

Thank you for choosing Broadcast Electronics!
