Spare parts placement

In the next pages any views of the models, are shown.

The front panel is the same for all models, so its view is shown once. Instead, top and bottom views (Table A, B, C, D, E and F) are shown for each model. They are divided in "Table ... Top" and "Table ... Bottom", for clarity.

Please, look at the tables to find the placement of the spare parts inside the equipment.

All the spare parts listed (boards depending on version included) are referenced in the tables.

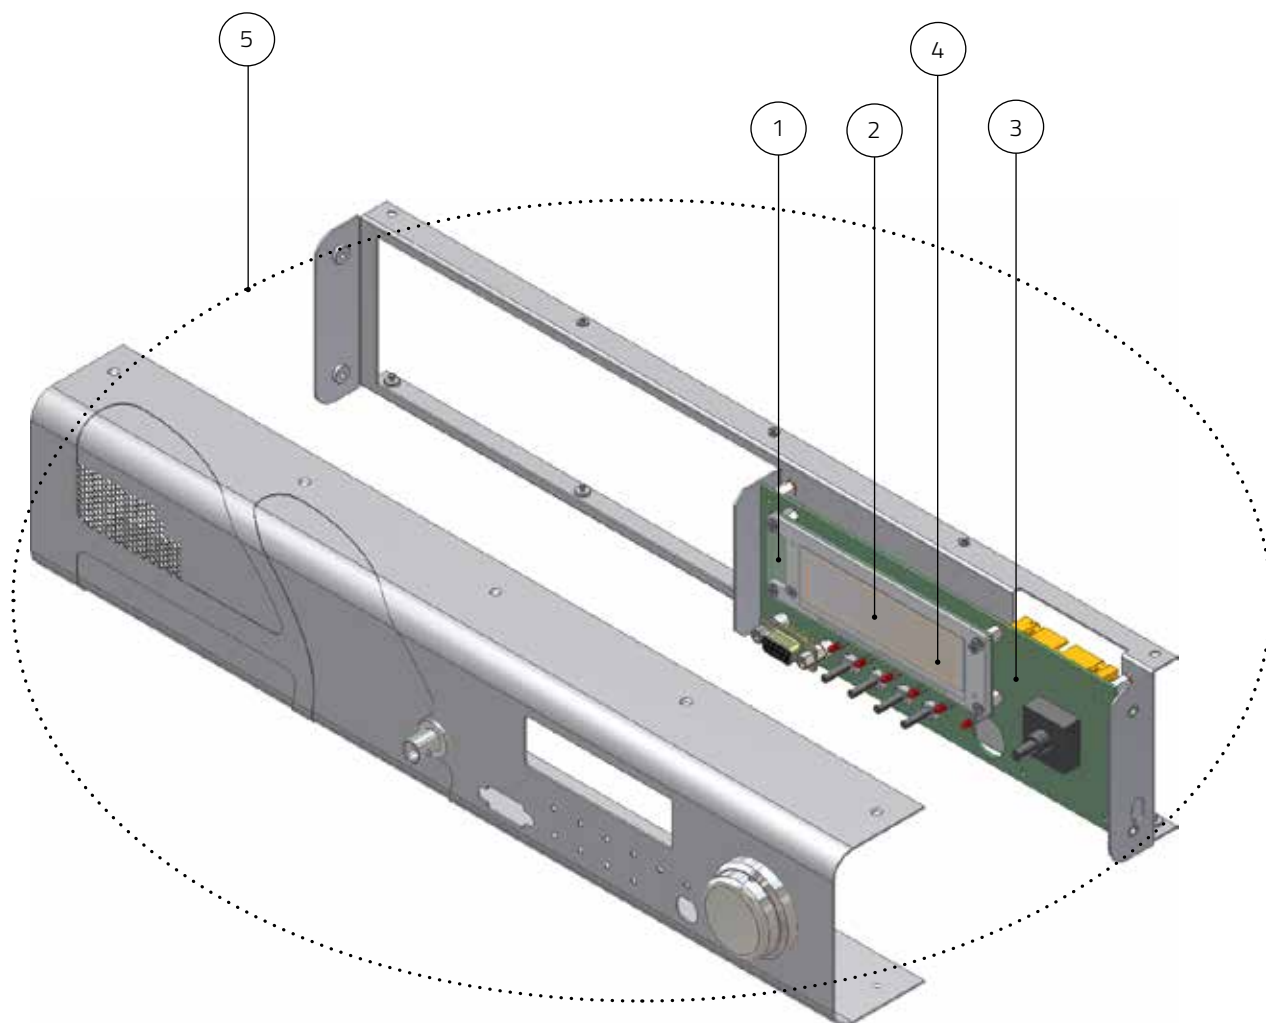

The replacement of spare parts should be performed only by qualified technicians.
